

Finnish-Chinese Symposium on Advanced Fuel Cells and Materials
(27-28 July 2017, Aalto University)

A Finnish-Chinese Symposium on Advanced Fuel Cells and Materials is organized in parallel to Nanoenergy conference in Aalto University, Finland 27-28th July 2017. The aim of the Finnish-Chinese symposium is to discuss current topics in the field (with especial emphasis on topoionics), but also to identify further steps to enable technology breakthroughs.

Programme

1 day (July 27, 2017)

- 3-hour session for an international audience
- Presentations from China and Finland; 2 plenary talks
- State-of-the-art of research, trends

2 day (July 28, 2017)

- Finnish-China grouping (limited to 40 participants)
- Presentations from China and Finland
- Beyond the state-of-the-art of research
- Joint brain-storming sessions on further R&D needed for breakthroughs
- Visits to laboratory facilities
